

NICOLAI FRIEDRICH

MAGICAL ENTERTAINMENT

A portrait of Nicolai Friedrich, a man with dark hair and light eyes, wearing a white button-down shirt. He is looking directly at the camera with a slight smile, his hands raised to his temples. A small, stylized eye logo is visible on his shirt.

Nicolai Friedrich

Style, Charm and Method

Nicolai Friedrich belongs to the new generation of Magicians whose success lies not only with their technical equipment, but with an unparalleled and remarkable stage presence that amazes the audience.

Nicolai Friedrich not only performs magic tricks on a stage, he seems to be a real magician. He captivates with his brilliance, charm and comedic talent.

His love of his work is apparent during every moment of his performance, and is felt by all in his audience.

With this passion he manages, in a short time, to turn even the most skeptic of his critics into an amazed member of audience.

His mixture of visual artistry, fantastic comedy and fascinating Mental Magic is one of a kind. A refreshing brainteaser combined with so much laughter your stomach will hurt, creating a result that is guaranteed to blow your mind!

The ease with which he manages to perform his inexplicable art, and the amazement he generates brings joy to all who see his performances.

— Thomas Gottschalk

»This guy is great!«
— Brian Adams

»With slight of hand, charm, entertainment qualities and incredible performances you have fascinated our demanding audience. «
— Hansjörg Cramer, Vorstand Allianz AG

Show

Making the impossible possible

Nicolai's Friedrich/s repertoire contains precisely chosen classical magic tricks, reminiscent of the old magicians, as well as new creations which he himself developed and which are not performed by any other illusionist in the world. Nicolai Friedrich guides his audience into another world. With apparent effortless Nicolai Friedrich breaks through the laws of nature. Physical objects float, change their shape, or reappear in new and impossible places. Objects take on new meaning, and he is able to read our thoughts. And the best part of all: His audience always plays the main role.

Mental Fascinating the senses!

In the past years Nicolai Friedrich has worked intensively in the highest most advanced forms of mental magic. This special form of magic breaks the boundaries of traditional magic, leading his audience to believe in the existence of the paranormal. With help and support from psychology, the art of suggestion, subliminal messaging, intuition and his magical talent Nicolai Friedrich is able to apparently get inside the heads of his audience. Not only does he appear to read minds, he is able to control and influence thoughts.

His audience not only witnesses that which is seemingly impossible, they actually participate in the experiments as Nicolai Friedrich demonstrates his mental powers. It is overpowering to witness not only his ability to read minds, but the rare gift to look into the future. But a warning, be careful what you think around him, as your innermost thoughts and deepest desires are not secret from Nicolai Friedrich...

Close up Too close to ever forget

Magic does not only happen on the big stage. It can also be shown right at the tables, directly under the audience's nose. This is called »Close-up magic« and here you can scrutinously watch Nicolai Friedrich's fingers. With rolled up sleeves Nicolai performs visual magic with everyday objects like cards or coins. Moreover he does stunning mind reading experiments as Metal Bending or making a borrowed finger ring float in mid air.

The audience is allowed to touch and to control all requisites which he uses. Irrespective of whether he is performing slow or fast tricks, the audience is left no chance to work out any of his tricks!

Media Amazement of wonder

Nicolai appeared in numerous TV shows here are some Media clips. Make sure to turn on the english subtitles. All shows can be performed in english.
